Each presentation slot is 40 minutes using a discussant format (25m presentation + 5m for the discussant + 10m for general discussion).

09.00-10.00: Session 1 Chair: Marcin Zalewski (Indiana University)

- **Welcome + PC chair report**
  Bruno C. d. S. Oliveira and Marcin Zalewski

- **Outrageous but Meaningful Coincidences (Dependent type-safe syntax and evaluation)**
  Conor McBride
  *Discussant: Edwin Brady*

10.00-10.30: Tea/coffee

10.30-12.30: Session 2 Chair: Shin-Cheng Mu (Academia Sinica)

- **Scrap Your Zippers: A Generic Zipper for Heterogeneous Types**
  Michael D. Adams
  *Discussant: Manuel Chakravarty*

- **Generic Storage in Haskell**
  Sebastiaan Visser and Andres Loeh
  *Discussant: Fritz Ruehr*

- **Generic Selections of Subexpressions**
  Martijn van Steenbergen, José Pedro Magalhães and Johan Jeuring
  *Discussant: Neil Mitchel*

12.30-14.00: Lunch

14.00-16.00: Session 3 Chair: Bruno C. d. S. Oliveira (Seoul National University)

- **Generic Multiset Programming for Language-Integrated Querying**
  Fritz Henglein and Ken Friis Larsen
  *Discussant: Jeremy Gibbons*

- **Algorithms for Traversal-Based Generic Programming**
  Bryan Chadwick and Karl Lieberherr
  *Discussant: Patrik Jansson*

- **Ad-hoc Polymorphism and Dynamic Typing in a Statically Typed Functional Language**
  Thomas van Noort, Peter Achten and Rinus Plasmeijer
  *Discussant: Alley Stoughton*

16.00-16.30: Tea/coffee

16.30-18.00: Session 4 Chair: Conor McBride (University of Strathclyde)

- **Reason Isomorphically!**
  Ralf Hinze and Daniel James
  *Discussant: Janis Voigtlaender*

- **Constructing Datatype-Generic Fully Polynomial-Time Approximation Schemes Using Generalised Thinning**
  Shin-Cheng Mu, Yu-Han Lyu and Akimasa Morihata
  *Discussant: Zhenziang Hu*
